

As a military member, K-LOVE serves my family as a beacon in a secular world. It is wonderful to be able to find a K-LOVE station through its translator services when traveling throughout the US.

If LPFM broadcast stations are given priority, the current freedom of choice would be shifted. We must not forget the priorities of the established stations and associated translator services.

It is this freedom of choice that would no longer be an option for my family to receive the blessing of encouraging, commercial free christian music throughout the US.
